in Paris - Activity of the Intelligence Section.

YUGOSLAVIA

SECRET

10/1/75

The secret Ustasha Organization in Paris is active under the title "The Party of Croatian Concord". The organization has its own seal on which, beside the indication of residence "Paris", is written, "Presidency" ("commanding section of the organization).

The secret Ustasha Organization has its intelligence service, that is a part of the secret international guaranty observing service YUGOSLAVIA (Tajna Internationalna Straznitsa Sluzba Osmatranja) headed by Colonel Ivan Deric. The center of the Ustasha intelligence service is in Italy, and the section Paris is under the Party of Croatian Concord.

The official title of the Ustasha organization at present is: "The Party of Croatian Concord - Federation of Croats out the Homeland."

At the top of the Party of Croatian Concord is Dr Ante Pavelic as a leader. He was a chief of the fleeing state of Croatia during the war and actually is in Argentina.

Into the frame of the party there is the "Intelligence Section" headed by a person under cover name Vuk.

This section is controlling the activity of all Croats abroad and whose ever actions are not in harmony with purpose of the Ustasha organization, is being removed by a menacing letter, and then, if he continues to be in conflict with the Ustasha ideology, other measures are being applied. In this manner the Ustasha organization is directing the activity of all Croats in emigration.

The Intelligence Section of the Party of Croatian Concord has sent such a letter, registered by No. 00682, to Mrs. Mate Gaspar in Paris, and sent the back side of the envelope there was a seal of the Party of Croatian - Party of Concord. - Mrs. Mate Gaspar has

even more needed for mission of having someone about the "leader" (Dr Ante Pavelic) ^{publicly} ~~has~~ been invited to stop such an activity or, "his mouth will be shut forever" (he will be killed).

4 According to the information attained up to present the cover-name Vuk belongs to Pavle Radić ^{sup p.}.

5 The Intelligence Section of the Party of Croatian Coms which is a section of the ustasha organization "TISZ" at present is in direct contact and under control of the Intelligence Center of the Cominform (Intelig Center of the Comintern in Belgrade).

6 In the same way as in the South America, where the Communist Party ~~was~~ not having a large number of members and organizations ~~was~~ was obliged to depend on the previously established ustasha organization so the Cominform depends at present on the existing terroristic organizations, regardless of their part, for all illegal and terroristic actions in the western Europe.

Historical development of Ustasha Intelligence Service in France.

7 The Ustasha intelligence service in France was established at the end of 1945 by ^{1st} (Dr) Edo Bulat and ^{2nd} Branko Peselj after their arrival from Yugoslavia.

8 On the last session of the Croat Government, presided by Dr Ante Pavelic personally, a sum of 1000,- gold coins has been given to Dr Edo Bulat for creation of this organization. The Minister Dr Edo Bulat arrived in Paris in company of Dr Branko Peselj, the secretary of Dr Vlatko Maccek, as they have established the Intelligence Section of the Ustasha Organization (it is unknown whether Dr Maccek knew it) which had the following undersections:

- a) propaganda
- b) information
- c) executive.

9 The Propaganda Section has been and still is headed by Dr Andrija Artukovic, the first time known to the

international public in 1934, when he had organized the attempt against late King Aleksandar in London (in case if the attempt in Marseille might fail). He is still illegally in France and leads the propaganda section of ustasha organization protected by the French ~~super~~ lawyer Desbone, the defense lawyer of the co-operators in Marseille attempt. Dr Andrija Artukovic has been the Minister of Police in Croatia during the war and during the occupation, and he is responsible for all terrorist activity in Croatia. It is characteristic that he has ^{even} never ~~been~~ requested or declared as a war criminal by the present Tito's government.

French lawyer Desbone is the author of many books and booklets in defense of the Ustasha Movement and its crimes during the war.

The Information (intelligence) section has been established by Dr Edo Bulat and Dr Branko Peselj.

Dr Edo Bulat has been a Minister of different offices in Pavlic's government and he escaped from the country together with Dr Branko Peselj, and both of them have lodged in the Hotel Astor (Rue Pier B' Emur No 24) in Paris, where the Intelligence Section of the Ustasha organization has been located also.

With this section were co-operating Dr Rudolf OTERN-FELC and (Dr Nikola HOGAN, but beside the center in Italy, this section had its sections in Switzerland (Dr Kabas) and in England (Dr Branko Jelic)

The Executive Section has been headed Pavle Radic, a court officer of the Ustasha Militia, who after the departure of Dr Branko Peselj has assumed the leadership of the intelligence section, too.

Co-operation of the Ustasha Intelligence Service with VDB and the Soviet Service

After the war's end when Dr. B. Peselj arrived in Paris, he in fact has not established a new ustasha center but only re-actuated the old one which existed before the war.

Dr Branko Peselj arrived in Paris the first time in 1928, and as a student he has been a member of the ustasha association, "Sloga" (Concord). At that time the macedonian organization V.M.R.O had its center in Paris, too. As a separatistic movements of Balkans, the Ustasas and V.M.R.O have been co-operating. Furthermore, there was a cooperation between the Ustasas and Macedonians from one part and the communist parties of Balkans, from other part, established by the charter "Balkans' Federation" in Vienna in 1924.

In 1929 a strong ^{ustasha} center ~~organization~~ has been organized in Vienna ^{in 1929}. The former officers of the Austro-Hungarian army the General ^{H*} Sarkotic, ^{H*} (col) Stjepan Dujic, Dr. Branimir (Branko) Jelic and Percevic have taken part in it. - The center in Paris has been headed by Eugen Kvaternik and student Branko Peselj.

That same center has been reorganized ^{in Paris} by Dr Branko Peselj, born on february 5, 1905 in Zagreb, who in the meantime has accomplished his studies in Zagreb, where he was a member of the secret ustasha organization, but in public political life has been a member of the H.S.S. (Croatian Peasant Party) from which ~~every~~ has been excluded once.

The financial means for the intelligence center in Paris have been provided by Dr Edo Bulat, Rudolf OTENFELD and ^{H*} (Dr) Kadas (illegally transferring the Swiss ^{on way to the U.S.} Transals to France through OTENFELD).

Dr Branko Peselj has left France ^{on way to the U.S.} on august 5, 1947 from Le Havre, together with Dr Vlatko Macek and his family. The information center (intelligence service of the ustasha movement) has been assumed by Pavle Radic, who previously already had penetrated in the close vicinity of Dr Vlatko Macek as an instructor of Mrs Macek for French.

Contacts of the Ustasha Intelligence Service in Paris.

yet at the time when Tito's General Ljubomir ^{H*} ~~Thic~~ (at present, ~~ex~~ plenipotentiary minister for the South America) a normal contact has been established between

the ustasha intelligence service for a co-operation in the struggle against the "common enemy", that means the "American Imperialism" and the "International reactionaries" (democratic emigrants).

A reward for this was a fact, that neither one of well known Ustasha ^{in France} has been requested as a war criminal by the actual Yugoslav government, although at that time Dr Edo Bulat, Dr Andrija Artukovic and many others have been in France.

Contact between Dr B. Peselj and Ljubomir ILIC has been personal. Besides this Dr Peselj has been received three times in the Soviet Embassy.

After the departure of General Ljubomir Ilic the contact with at that time OZNA (at present UDB) was maintained by the direct personal contact between the appointed Minister to France Mate Jaksic and the chief of the service Dr B. Peselj.

Primux has been sent from Belgrade afterwards, and he has put all faces of a "refugee" to be able to present himself as an "emigrant". At present he is a contact-man between the UDB and the Ustasha Intelligence Service.

Dr Dragutin Kamber, priest, ideologist of the Ustasha Movement and editor of the Ustasha paper, "Kato=lički Tjednik" = (Catholic Weekly) during the occupation, serves as contact with a certain Vatican circle.

A contact with the pro-ustashas in the USA is maintained by Dr Kolakovic, who is an American citizen and who enabled the entrance in the U.S. not only to Dr Vlado Hecak, chief of the Croatian Peasant Party but also to Dr Branko Peselj, the chief of the Ustasha Intelligence Service which actually is working on behalf of the Cominform.

The contact between the section of the Ustasha Intelligence Service in Paris and the Center in Italy runs through the elements of the Italian Intelligence Service, which more than 20 years co-operates with the ustashas. The liaison officer at present is Ivan

He travels with Italian documents procured by the Intelligence service; has a brother in the U.S.A from ~~and~~ which receives great sums of money.

The Ustasha Intelligence Service in Paris is in close relations with the Italian service through which receives the material and financial means.

Another contact with Italian service is held by Pavle Radic ^{with} ~~and~~ Becasfiglio Francesco, an Italian, born on October 3, 1913 in Zagreb of Italian parents.

26. Actual direct contact with the Soviets has been by Velyko Bacic, who has been in Paris not long ago and has lodged in the Hotel Regis on Champ Elise. He is ~~an~~ reserve officer and during the war has been an agent of the Soviet Service; married to a Greek princess, known as a "Red Princess." He is used by the Soviet service for a contact man with different separatistic movements.

27. The Ustasha intelligence service in Switzerland has directly connected with the UDB through Milutin Topic who has been arrested in French Zone of Germany on June 26, 1946. Topic has been officially a Yugoslav delegate at the Red Cross in Geneva and had a personal contact with Dr Kabas.

Closely connected in Switzerland, Italy, France, an organized information and transportation service the Ustasha Intelligence section presents actually a powerful espionage apparatus. That is the reason why the UDB has made an effort to include it in its own service in the same way as the Gestapo apparatus has been included by Soviets in their service.

Beside the merely intelligence activity the Ustasha center in Paris is important regarding the transportation of agents in the countries of South America. The scandal in Chile disclosed the compromising activity of (General) ²²⁸Frangjo Pirc, ²²⁹Quito Nic, ²³⁰Jakasa and ²³¹Ganja and makes evident that the Soviet intelligence service, through the VDB, is depending on the existing Ustasha organizations. The section has at disposition great financial means and beside the intelligence activity for different services (UDB, Italian, British Intelligence, etc.) affects the transportation of material and agents as much through the countries of western Europe, as between the western Europe and the South America.

Only one member of the section succeeded to enter the USA, just the former chief Dr Branko Peselj.

The source should had to explain what he understands under the word Ustasha? The followers of the program of a separate state of Croatia, or those very few who wish to see a dictatorial regime in the separate state of Croatia, or perhaps all Croats feeling their individuality and thinking with their own brains. - At any way no Croat group following the program of a separate state, - and these generally use to be called ustasha, had ever given any name to their group.

The Presidency can never be considered a section of any organization.

I have had a very intimate relation with so called Ustasha Intelligence Service and I must to say, that a story of some International..... T.I.S.S.O. is a tale.

Let's suppose, that the center of the ustasha intelligence service has been in Italy at the time when the source has written his report, but what means, that the section in Paris is under the Party of Croatian Concord? If so, then or all the party is only one detachment of that central Ustasha T.S. in Italy, or the section in Paris working on the intelligence field is acting on behalf of the Party of Cr. Conc.

Already said that no party was created, less more such that Dr Ante Pavelic would be leading. - Pavelic is at present in Argentina, but probably he was not there when this report has been written. In October, as I have been informed he was still in Europe. -

Too many deductions made from one minuting letter, or too much fear?

At least one proof indicating Pavle Radic' as such.

Now at once the Party of Croatian Concord became a section of the T.I.S.S.O., and the T.I.S.S.O. an ustasha organization. However it might be, but the source

found that all that mixture is in direct contact ^{if} and under control of the Cominform, which as intelligence section of the Comintern is placed just in Belgrade.

It is true that the communist foothold in the south America are the emigrants (not only Croats), but these almost all are naturalized, and they have joined the Tito's organizations or became pro-Tito and pro communist under the influence of our and British war propaganda, when we have glorified Tito and have asked the financial contribution for the fight of liberation. Credit to the ustasha organizations that means Croatian National organizations, that has been saved that what was.

The masters of illegal activity and terrorism, the communist, at once have nobody for their communist activities in western Europe, but some illegal and terroristic organizations discovered by the source

Nobody, but Dr Eda Bulat and Dr Branko Pešelj have established the intelligence section in France.

To every Croatian Minister and ~~the~~ secretary has been given 100 (hundred), but not thousand gold coins for his personal ~~own~~ needs. Further on: if Bulat arrived in Paris with Pešelj, then he arrived also with Dr Maček, and sounds just funny that Dr Maček might not be informed about what we doing his personal secretary and the person of most confidence Dr Pešelj:-

(Dr) Andrija Artuković arrived in France ~~at~~ seven months after Bulat-Pešelj-Maček at least and has been very busy saving his own life. - There is false that the international public has heard for the first time about Artuković in 1934 but at least two years before when the government of the Kingdom of Yugoslavia has requested his

extradition from France or Italy ~~at~~ under the charge of a common criminal. The story has been going too long through the European newspapers, and the Yugoslav government ^{was} constrained to guarantee his integrity if the court might find him innocent. Artekovic has been tried in Belgrade and dismissed as innocent for the alleged criminal charge, for such one didn't exist, and for political charges could not be sentenced for reason of already given international guarantee by the government. In connection with Marseille attempt he indeed was not mentioned. As much I remember London was not on the schedule of the fatal trip of King Alexander, but Marseille-Paris-Lausanne...

At the time when the report has been written, Dr Andrija Artekovic has not been in France certainly, but perhaps already in the U.S.A.

Dr Andrija Artekovic has been for relatively short period the Minister of Interior, but the police was under the (State) secretary of the Public Order and Security, thus never has had the command over the any sort of police. After all these things were regulated by published law.

It is ridiculous, when the source states, that he never has been requested as a war criminal, because all "ministers and generals have been requested "opis inris". - Such a statement can be qualified as an insinuation, only.

French lawyer Leon Desbonne had had never any contact with the ustaschas before he appeared as a defense lawyer of three ustaschas involved in the Marseille attempt, - he personally said ^{informed me} to me in ~~1943~~ 1943. He also, that he was studying the problems of Balkans and near east and for that reason wanted to take active part in that time. During the trial Desbonne was discharged and cancelled from the register of lawyer. He really has written on this problem, but illustrating

10 reasons which have brought the situation to such a critical point. Of course the facts have not been favorable for dictatorship of the Dynasty (Royal House of Karagjorgjević at that time.

Dr Edjo Bulat has been always a minister without office. The single, one effective job he had ~~was~~^{headed} was ~~the~~ the Relieve to Dalmatian Office. Then for a few weeks he was the High Commissioner for Dalmatia what resulted with a very strong conflict with Germans. How long he has been in Paris I don't know, but is certain that he was almost the first Croat ^{refugee} who arrived in the South America (Brazil. At present in Buenos Aires).

Except Dr Kabas and Dr Branko Jelić I don't know other co-operators of this section in Paris which has sections in Switzerland and England. As the source has reported, it might seem as though the center in Italy had been also a section of the section in Paris. - Dr Kabas certainly didn't want to develop any activity that might discolore him as an Ustasja for he has been a Minister of Treasury in state of Croatia; but ^{he} rather tried to affirm himself as a H.S.S.-man, what in fact he has been.

Dr Branko Jelić have made the greatest efforts to actuate his acquaintances in London to save the Croat refugees from prosecutions and to help to millionize their conditions of living. He was corresponding with all refugee groups. About his correspondence with Dr Krunoslav Dragawic in Rome I have had reported at proper time. This particular work has been rather an attempt of political activity, than any other doing.

12 Now at once Dr Jelić equals the intelligence section, and Pavle Radić assumed his post. After a few paragraphs of the same report all doubts have disappeared and the source became certain. How

Our honorable source already has given us -- he told, some lines above, about Dr Bulat etc. and we see in this paragraph that Dr Jelić is the spiritus movens - the organizer, chief.

Poor Dr Jelić, or better magical man, who had become a member of ~~an~~ an Ustasha organization in 1928, although the Ustasha Movement (organization) has been founded in 1929 in Zagreb.

The cooperation of "Ustasas and V.H.R.O with the communist parties" ^{in 1924} is ~~in 1924~~ ^{is} ~~one~~ ^{one} discovery of our source, because he is once more in the same paragraph a victim of dates (1924!!!)

I really have no idea about that famous "Balkans Federation", although many less important facts are at my knowledge. - Who knows if such a strange source didn't confused the Croatian Federalistic Party, leaded by late Dr Ante Trumbić, and ^{unshared and communist} ~~source of its acts~~. Really (Dr) Trumbić in 1924 was at the summit of his political activity trying to destroy the Serbian centralism on merely democratic ground. - Dr Trumbić told me on May 5, 1935: "My son, I have builded the Jugoslavia and nobody ~~unshared and communist~~ ^{more} has ^{right} to destroy it." - Being that our source sees a communist in every person and activity not tending to the greatness of the Serbian Royal House ^(such a mistake would not be a surprise) of Karadjordjević. - This is the only explanation I can find for that historical charter, "Balkans Federation". -

One new acrobasy: Dr Branko Jelić, who at the time of collapse of the Austro-Hungaria, has been about 12 years old, became an ex Austro-Hungarian officer, and the Staff Colonel Ivan Perčević has been brought on the same level with Dr Jelić. - Eugen Krstović ^(in France) has been important factor of Ustasha organization, but much later (about 2-3 years). The name of Dr Jelić I have never heard to be mentioned neither between the members of the organization. He is in ~~Paris~~ ^{Washington}.

in the meantime accomplished his studies? From 1923 to 1945 ^{too much} of time has passed to say, in the meantime. But Dr Pešelj, alive or in death, must be Ustasha at least in an uncontrollable way. The source wants so, and it must be so.

Some black market activity can not be excluded, but I know, that just Dr Maček badly needed money and looks more understandingly if Dr Pešelj as his secretary took care to provide it for him.

It is really amusing, when Pavle Radić, who can be considered as a member of Maček's family, begins to penetrate in the close vicinity. . . . I think, that the greatest fault of Pavle Radić ^{lies in} the fact, that he is a son of Representative (HSS) who was killed in the Parliament of Belgrade ^(legally) on June 20, 1928. His presence might recall in mind of somebody, how looked the democracy in ^{at present propagated} the National Yugoslavia.

What means a "Plenipotentiary Minister for South America?" - How to call such ^{unrepresentative} ~~unrepresentative~~ of the source when he states about a co-operation of the Ustasha intelligence service and the OZNA in the struggle against America?

The records can speak louder ^{than I} about the facts, whether there were or not requests of the Ustashes from France. At this moment I remember, that Dr Grga Erić, "secretary in the Croatian Ministry of Foreign Affairs, has been extradited to Yugoslav Government by that of France, and that Erić has been convicted to death.

~~Supposed~~ ^{or at least acquaintance,} Supposing that Primaz has contact, with some Croat in Paris, we should know who he is, because the source does not deserve any credit to any uncontrollable information.

Dr Dragutin Kamber has been a military chaplain in the ustasha militia. I don't know whether Kamber ever has been a editor of the weekly, "Katolički Tjednik" but I'm thoroughly sure that he ~~has~~ not been the editor ^{during the war, that is under the occupation} for I knew the editor most Rev. Čelik. It is to emphasize, that the "Katolički Tjednik" has been a religious weekly, and that it had many difficulties to continue the publishing because never agreed with the ustasha regime. But it must to be some reason, why the source declares this ~~paper~~ paper as an ustasha paper. Because is being published in Sarajevo and ~~is~~ although not patronizing any political party it conserved always the Croatian National character and in the limits of possible under the censorship of the Kingdom of Yugoslavia never stopped to make present the Croatian nationality of Bosnia. When the source mentions Vatican in this connection he only certifies that he has no idea about Vatican and the catholic church organization. I met Mussulmans, who would not make such a mistake.

I have never heard about Dr Kolaković, but I know that many persons have been very busy to get Dr Maček ^{in USA} (Franciscan Fathers in Chicago, prof. Dr Đurko Tomasić, ...)

20.
Dr. Kabas by my opinion is incapable for an intelligence activity. He knows is field: finance! Of what character might be that contact with Topic, I have no idea, but if it was a contact of any political character, then Dr. Maček and Dr. Petić will be informed about it. I'm able to say only, that it has not been effected on behalf of the other, usually called ustasha, group.

21.
The names mentioned in connection with the ^{the} scandal in Chile confirm what I said in paragraph 6. - In every European country where are Croatian refugees, there a group of persons taking care about their transportation to one of the countries of the Latin America. Monsieur Dr Augustin Juratic is not unknown in Serbian political circles, for he has been living in Belgrade for several years. - At present he is considered as the most prominent HSS propagator in Europe. - During my over three year sojourn in Italy I couldn't observe that he ever has come to Italy more than 2-3 times a year.
